

UNCensored

Oklahoma Magazine

The folks that have brought you Etown Magazine, bring you Uncensored... a new publication meant for the 18-25 demographic, a hard group to reach with your marketing message.

The team that is putting together Uncensored is entirely from the age group we're appealing to, 18-25. The look of the magazine and its content have been based on a series of focus groups with young people from the age range in question.

Just like we did with Etown, Uncensored gives you a way to speak to an important part of your potential client base. Uncensored will be a little edgier than Etown, geared to the sensibilities of its market.

It will be distributed in the Enid area for free at nearly 40 outlets, ideally suited to the audience. groups for advertisers nationwide.
